

DR. AHAMED SHIBIL P, MBBS

CHIEF - NEUROINTENSIVE CARE

Neurointensive Care | Neuroscience Operations | Clinical Safety | Medical Administration | Digital Health
+91 99459 28464 | ahamedshibil@gmail.com | Kottakkal, Malappuram, Kerala, India

PROFESSIONAL SUMMARY

Neurointensive care physician and healthcare operations professional with experience across neurosurgical and neuromedical ICU care, postoperative management, mechanical ventilation, hemodynamic stabilization, neuromonitoring and neuro-interventional support. Since May 2022 at Almas Hospital, combines bedside practice with neuroscience service administration, workforce coordination, clinical governance, patient safety, command-centre operations and digital-health development. Current roles: Chief - Neurointensive Care, Clinical Safety Officer, HOD - Care & Command Centre, and Medical Lead - CuraNova AI. Targeting Gulf/GCC roles in Neuro ICU/Critical Care, clinical operations, medical administration, patient safety, telemedicine/command centre or digital health.

CORE COMPETENCIES

Neurocritical Care; Neuro ICU Operations; Neurosurgical and Neuromedical ICU; Postoperative Cranial and Spinal Care; Traumatic Brain Injury; Stroke; Neuro-interventional Care; Mechanical Ventilation; Difficult Airway; Hemodynamic Stabilization; Sepsis; EVD/ICP Monitoring; Basic EEG; TCD; POCUS; Clinical Governance; Patient Safety; RCA; CAPA; Mortality Audit; Quality Improvement; SOP/Workflow Development; Staff Supervision; Medical Administration; Care & Command Centre; Telemedicine; Prehospital/Ambulance Workflow; HIS Development; Digital Health.

PROFESSIONAL EXPERIENCE

Chief - Neurointensive Care / Administrative Executive - Neurosciences Department

Almas Hospital, Kerala, India | May 2022 - Present

- Provides clinical and administrative coordination across neurosurgical and neuromedical intensive-care services, postoperative pathways, rehabilitation, neuro-interventional support and multidisciplinary patient flow.
- Coordinates services across an 8-bed Neurosurgical ICU, 2-bed Neuro HDU, 8-bed Neuromedical ICU and dedicated isolation capability.
- Coordinates a multidisciplinary workforce of approximately 5 doctors and 40 ICU staff, including clinical coverage, duty allocation, escalation, workflow and interdepartmental communication.
- Manages patients with neurotrauma, traumatic brain injury, ischemic stroke, neurological emergencies and postoperative cranial/spinal conditions.
- Provides invasive and non-invasive ventilatory management, airway support, hemodynamic stabilization, sepsis management and postoperative surveillance.
- Performs/uses central venous access, arterial lines, endotracheal intubation, difficult-airway management, intercostal drain insertion, lumbar puncture, peripheral cannulation, Ryle's/nasogastric tube insertion, urinary catheterisation and POCUS.
- Monitors and manages EVD/ICP systems; performs basic EEG interpretation and Transcranial Doppler assessment as part of neuro-monitoring practice.
- Supports intraprocedural monitoring and assists during neuro-interventional cath-lab procedures, including peri-procedure and post-procedure critical-care coordination.
- Contributes to duty rosters, protocol implementation, clinical handover, case coordination, staff training and operational improvement within neuroscience services.

Clinical Safety Officer

Almas Hospital, Kerala, India | 01 Oct 2025 - Present

- Conducts Root Cause Analysis (RCA) for significant safety events and clinical/system failures.
- Coordinates Corrective and Preventive Action (CAPA) plans, follow-up actions and closure of identified safety gaps.
- Participates in mortality audits, clinical review, protocol development, risk identification and quality-improvement activities.
- Works with clinical and administrative teams to strengthen escalation pathways, documentation and patient-safety systems.

HOD - Care & Command Centre

CareFirst.ai / Almas Hospital, Kerala, India | 16 Jun 2026 - Present

- Provides medical and operational leadership for command-centre-based care coordination, escalation, handover and communication.
- Develops workflows linking clinical assessment, emergency response, ambulance coordination, hospital readiness, admission support and inter-hospital communication.
- Supports structured documentation, remote clinical visibility, teleconsultation concepts and technology-enabled care pathways.

Medical Lead

CuraNova AI | 10 May 2026 - Present

- Leads clinical translation for digital-health and healthcare-operations workflows across ambulance coordination, prehospital care, telemedicine, home-care and command-centre services.
- Supports Hospital Information System (HIS) development by mapping clinical workflows, documentation, handover requirements and clinician usability into digital processes.

SELECTED CLINICAL, ADMINISTRATIVE AND DIGITAL HEALTH PROJECTS

- Highway Emergency Care and Ambulance Coordination - contributed to planning and SOP development for emergency identification, triage, ambulance dispatch, hospital capability matching, admission and inter-hospital transfer pathways in collaboration with Malappuram district stakeholders; this is a collaborative project role, not a government appointment.
- AI-Integrated Mobile ICU / Advanced Ambulance Concept - contributed clinical workflow requirements for connected monitoring, remote consultation, EMT support, documentation, escalation, patient safety and destination decision-making.
- ICU Improvement and Structured Handover - developed concepts for structured neurological/systemic assessment, safer shift handover and surveillance of urine output/DI, critical values, lines/tubes, ventilation, nutrition and prophylaxis.
- CareFirst.ai Command Centre - supports technology-enabled dispatch, clinical escalation, handover, admission coordination and cross-team communication.
- Hospital Information System Development - medical workflow input for CuraNova AI, focusing on practical clinical documentation, handover, usability and integration of real hospital processes.

CLINICAL PROCEDURES AND TECHNICAL SKILLS

- Airway and ventilation: endotracheal intubation, difficult-airway management, invasive mechanical ventilation, NIV and ventilator weaning support.
- Vascular and emergency procedures: central venous catheter insertion, arterial line insertion, peripheral cannulation and intercostal drain/chest tube insertion.
- Other bedside procedures: lumbar puncture, Ryle's/nasogastric tube insertion, Foley catheterisation and bedside POCUS.
- Neuro-monitoring: EVD and ICP monitoring/care, basic EEG interpretation, Transcranial Doppler (TCD) assessment and multimodal neuromonitoring exposure.
- Neuro-interventional support: intraprocedural monitoring, cath-lab assistance and post-procedure ICU management.

TEACHING AND PROFESSIONAL ENGAGEMENT

- International Medical Graduate Training Programme - clinical teaching, rotation planning, case discussions, ICU supervision and programme coordination.
- Regular bedside teaching and supervision for junior doctors and ICU teams in neurointensive-care workflows and critical-care practice.
- Training involvement with EMT/ambulance personnel and emergency-care workflows.
- Panelist - PeptaQuest Season 3, Episode 1, Taj Gateway Bekal, Kasaragod, 24-25 Jul 2026.
- Chief - Almas Medical Support Team, Malappuram Revenue District Kalotsavam 2023.
- Secretary-elect - Indian Medical Association (IMA), Kottakkal Branch; installation scheduled for 18 Oct 2026.

EDUCATION

MBBS - Al Ameen Medical College, Vijayapura, Karnataka

Rajiv Gandhi University of Health Sciences (RGUHS)

Compulsory rotating internship completed at Al Ameen Medical College, Vijayapura.

MEDICAL REGISTRATION

Travancore-Cochin Medical Council (TCMC) - Registration No. 86057

CERTIFICATIONS AND TRAINING

- BLS - Basic Life Support, American Heart Association (AHA).
- ACLS - Advanced Cardiovascular Life Support, American Heart Association (AHA).
- POCUS Training - Baby Memorial Hospital, Calicut.
- POCUS - Sonosteth Training Programme.
- Ventilator Workshop "Ventilife" - Aster MIMS Hospital, Kottakkal, 2024.
- Neuromonitoring in ICU Workshop - Criticare 2025 (ISCCM): ICP/CPM monitoring, EVD care, multimodal neuromonitoring, basic EEG and TCD.

PROFESSIONAL MEMBERSHIPS

- Life Member - College of Critical Care Medicine, Critical Care Education Foundation.
- Indian Medical Association (IMA), Kottakkal Branch - Secretary-elect (installation scheduled 18 Oct 2026).
